

# BREAKER INSTALLATION, MAINTENANCE, AND TRAINING SERVICES

## PARTNERING WITH MEPPI

MEPPI distribution-level equipment field- services includes installation services, breaker maintenance programs and training. Our services team can work with you to customize a program specific to your needs. As an extension of organization, MEPPI will manage the installation and/or maintenance of your MEPPI distribution-class equipment.

### Installation capabilities include:

1. Breaker offloading and assembly
2. Installation
3. Wiring
4. Testing - All of our acceptance testing is based directly off of MEPPI's recommendations along with NETA Acceptance Testing Standards. We also can and will include customer recommended testing, when and if applicable.

### Maintenance Program includes:

- **Physical Inspection** of coating services. MEPPI will clean the bushings and touch-up the cabinet where required.
- **Electronics Testing:** Timing, Travel, Vacuum Integrity, DC Micro Ohm. A new test report will be provided, test results will be compared to factory tests to evaluate change.
- **Mechanism/Contact:** measurements of shock absorber, cam roller, trip and close coils and inspection of contact wear.
- **Predictive Maintenance** as part of the service program, a breaker "revamp" parts kit (cabinet heaters, relays and timers) will be replaced and tested.
- **Recommendations:** You will be provided a comprehensive report of all testing and inspection. Additionally, any recommendations for part replacement (not included in the service call) will be provided.

## DISCOVER THE BENEFITS

- ♦ **Competitive Pricing** – services are competitively priced .
- ♦ **Extended Warranty\*** –  
**Installation Services:** When MEPPI installs your MEPPI Circuit Breaker, you will receive an additional warranty on the equipment.  
**Maintenance Program:** When MEPPI performs a full-inspection of the circuit breaker at the manufacturer recommended service interval, you will receive an additional warranty (with a good bill of health).
- ♦ **Expert Technicians** – the MEPPI technicians are rigorously trained by MEPPI and are completely authorized to install and service MEPPI circuit breakers.
- ♦ **Factory Access** because we are the manufacturer, we have direct access to parts and engineering.

\* Note: only currently available for 5KV through 72KV breakers.

**MITSUBISHI  
ELECTRIC**

POWER PRODUCTS, INC.**

## **INSTALLATION & MAINTENANCE SERVICES COVERAGE MAP**

*MEPPI continues to expand the service area. If you are interested in Installation and/or Maintenance of Distribution-Level Equipment, please contact us to discuss your specific needs.*

### **TRAINING SERVICES**

The MEPPI Distribution-Level Equipment Services team offers training for all our circuit breakers up to 72kV. Our product training specialists will work with your teams to develop training program that is appropriate for your substation engineering team.

Training can be conducted at your location or we can coordinate a remote training that utilizes live, instructor-led classroom training.

Contact MEPPI today to learn more about our Training Services.
