

MITSUBISHI ELECTRIC
POWER PRODUCTS, INC.

MEPPI ALLIANCE PROGRAM

With MEPPI, every high voltage breaker customer has access to our industry-leading experience in breaker design, manufacturing, product performance, and support, all of which result in some of the lowest operational costs and most reliable products available today. And now, customers who participate in MEPPI's Alliance Program can expect to receive this and much more.

Our approach for every customer:

Regardless of participation in our Alliance Program, MEPPI has and will continue to provide industry-leading customer service and support. With a single, primary point of contact, you will receive fast, knowledgeable responses for all of your breaker support needs. Additionally, a 24/7

needed. We invite you to contact our customers who can firsthand attest to our high level of quality and low operational and maintenance costs.

Our approach for Alliance Program customers:

Qualifying customers will receive expanded benefits at no additional cost, which include:

- ⑩ Reserved production capacity-scheduling;
- ⑩ Access to monthly production schedule reports for your orders;
- ⑩ Standardized drawing packages to facilitate ease of ordering;
- ⑩ Annual meetings to review key performance
